

ACRS Strategic Plan 2025-2030

ACRS Goal 1: Promote research and clinical practice collaborations to facilitate knowledge generation and translation of evidence to practice.

Objective 1.1: Create opportunities for collaboration and idea generation.

Objective 1.2: Offer continuing education related to collaborative research and scholarship.

ACRS Goal 2: Build capacity for research and scholarship that improves healthcare and health outcomes.

Objective 2.1: Encourage external and internal funding to promote research and scholarship.

Objective 2.2: Provide mentoring opportunities.

Objective 2.3: Promote student/faculty partnerships that enhance graduate and undergraduate research and scholarship opportunities.

ACRS Goal 3: Develop interdisciplinary and community partnerships to enhance research and innovation to address evolving health needs and complexities of clinical practice.

Objective 3.1: Increase opportunities for team collaborations among SON faculty and UNC Charlotte interdisciplinary partners.

Objective 3.2: Increase opportunities for team collaborations among SON faculty and external community partners.

ACRS Goal 4: Increase awareness of nursing's contributions to research, evidence-based practice, and innovations to healthcare delivery.

Objective 4.1: Increase representation on research and scholarship-focused local, state, national and international boards/committees.

Objective 4.2: Develop a plan to increase visibility of ACRS work.

Objective 4.3: Acknowledge ACRS research and scholarship achievements.
